

HIEU NGUYEN

FULL-STACK
DEVELOPER

ABOUT ME

Ola !

I see myself a full-stack developer. I fond of discovering latest tech stacks and turn them into helpful applications. Math and music are other two fields I am interested in. While playing sports and travelling are my hobbies. Putting them all together, I work to earn money, to serve the community and serve my purposes at the same time.

/ OBJECTIVE

I am seeking for more experiences to enhance not only my specialist knowledge, but also life-essential skills.

/ WORK EXPERIENCE

>> Business Application Developer

Vietnam Australia International School | November 2020

- Develop and maintain web applications, windows services for approximately over 2000 employees.
- Be responsible for supporting about 10000 users, include all students, parents, employees using CRM, CMS software
